Sarıtay Bilişim

Jan 2022 - Jan 2024

Software Developer

- I worked on two different projects at this company. The first, a cross-platform healthcare application called Dokitari, aims to improve communication, appointments, health analyzes and reports between users and hospitals.
- The other project I worked on is otelihtiyac, an online sales platform that aims to facilitate trade between hotels and suppliers

Sarıtay Bilişim

Intern

OCT- DEC 2021

- I began learning Front-End basics like HTML,CSS and JavaScript, while directly takingpart in a projects.

Akköprü Hydroelectric power plant

JUNE - AUG 2021

Intern

- 1 month of observation on how power plants work and electricity is generated. The nature was to learn the basics of the engines, control panels, devices, their functionality and way of distribution
