

Mustafa Anil Duman

Engineer

24 YEARS OLD

I am self-motivated, reliable and responsible, a team worker adaptable to challenging situations. I am able to work both in a group environment as well as using own initiative. I can work under pressure and adjust to strict deadlines.

Experience

Work:

- Jan 2022 - Present - Sarıtaş Bilişim - Junior Software Engineer

Antalya, Turkey

I took a part in projects involving the use of different FrontEnd technologies. Furthermore, I worked on individual projects.

- Jan - June 2021- Samsung - Technical support and assistance

Antalya, Turkey

I worked as a technical support in fixing minor issues for the customers as well as managing the needs of a customer and locating them to the proper channels.

INTERNSHIPS:

June-Aug 2021 - Akköprü Hydroelectric power plant

Köyceğiz/Muğla, Turkey

1 month of observation on how power plants work and electricity is generated.

The nature was to learn the basics of the engines, control panels, devices, their functionality and way of distribution.

- Oct-Dec 2021 - Sarıtaş Bilişim

I began learning FrontEnd, while directly taking part in a projects.

Technologies:

Front End technologies:

React, JavaScript, HTML, CSS, Bootstrap, Tailwind, ContextAPI, React-native, TypeScript, REST APIs, Expo Go, Redux, Next.js

Other technologies:

C++, Python
